About Us

In 1987, The Bhartiya Group embarked on a journey driven by the belief that good design brings happiness. Originating with leather fashion for names like Hugo Boss and Armani, the journey expanded with founder Sneheep Aggarwal's global inspirations, envisioning livable cities where comfort and affordable luxury coexist.

These insights sparked Bhartiya's mission to design for happiness and sustainability, transcending aesthetics. Today, their approach encompasses more than fashion—it's about enriching lives, fostering sustainable communities, and amplifying well-being. This visionary evolution aligns Bhartiya's ethos with a holistic commitment to enhancing lives worldwide.
